have clarified these ideas and be clearer about your project ideas. You should

Milestones: Proposal and Terms of Reference

These milestones apply to SD, IS and IAD students - for IBS

Milestones: Proposal and Terms of Reference
Milestones: Final Report and Presentation

1. Presentations will take place during the first two weeks in September.
2. Your report should be submitted by mid September 2005.
Start the names of any staff involved/consulted

Intended product: Details of the intended product

Description of the problem (which should be brief)

Project title (not too long)?

Your name and student ID

An outline of the project you wish to undertake and should contain:

This will soon be your immediate concern. The project proposal is

Project Proposal
Justification for the choice of project

Timetable with milestones

Risks involved in the project

Resources required to undertake the work

External details of external people involved
and arrange your demonstration/presentation.
It is up to you to arrange these meetings, submit your final report
and client over the July/August period.
For this reason you need to check the availability of your supervisor
client at regular intervals.
You will need to meet with your supervisor and (if different) your

Project Management
the report submission and examination should be in December.

• Project presentation of results will take place in November and
  (September).

• There will be a formative assessment midway through the project.

• Terms of Reference are required early in the project.

• The project comprises either pure research or research and a
significant IES system.

• The project comprises either pure research or research and a
mark for the final degree.

• The project should take 6 months and comprises 50 % of the
