

**COST TUD 1102 “Towards Autonomic Road Transport Support Systems”
Final Conference Programme, Hotel Novotel Le Lac, Bordeaux**

LIST OF POSTERS

Author(s)	Title	Affiliation of First Author
Katarzyna Goch	“The potential of driverless cars to improve road safety”	IBDiM, Warsaw
Dora Lee Borg	“A Cooperative Traffic Control Strategy”	University of Malta
Ivana Dusparic	“Autonomic RL-based urban traffic control”	University College Dublin
Patrizia Franco	“Self-awareness principles for a public transport decision support system”	University of Newcastle
Bia Mandzuka	“The use of autonomic approach to multi-modal journey planners.”	University of Zagreb
Tiziana Campisi, Neila Bhourri, Giovanni Tesoriere	“Comparative Results of Environmental Aspects obtained by Micro and Mesoscopic for urban Traffic Road Networks”	Kore University of Enna
Luana Chetcuti Zammit	“Multi-Agent Model Predictive Control: A review of its application in Intelligent Transport Systems”	University of Malta
Ivanjko Edouard, Sadko Mandžuka	“Application of Q-learning to ramp metering”	University of Zagreb
Celia Gomes	“Parallel and Distributed Abstractions and Models for ARTS”	New University of Lisbon
Martin Gregurić	“A Structured Simulation Environment “	University of Zagreb
Anahita Jamshidnejad	"Model predictive control for urban traffic networks considering endpoint penalties"	TU Delft
Andreas Gregoriades	“Evaluating the interface of smart in-vehicle head up displays through immersion”	Cyprus University of Technology
Matija Gulić, Ricardo Olivares, Daniel Borrajo	“Automated planning for autonomic traffic control”	University of Zagreb
Mauro Vallati, Bart De Schutter, Daniele Magazzeni	“Automated Planning for Urban Traffic Control: Moving from Objects to Flows”	University of Huddersfield
